## Alhaurín de la Torre

27 holes, three different combinations

Lauro 27 Golf can be found in the middle of beautiful pure nature in spectacular surroundings. The course consists of 27 holes that can be played in three different combinations, all par 72. From the beginning the design and function of the course has been based on respecting the nature and the environment that surrounds it by not only saving and caring for the already existing trees but also by planting thousands of new trees, most of them indigenous Andalusian species.

In Lauro Golf the nature is everywhere. Within the whole complex the direct contact with the nature is constant and whether you are playing golf, living in the residences or just enjoying a stroll in the surroundings you can see that we are not the only visitors at Lauro Golf. You can often see rabbits, ducks, partridges, herons and even eagles on and around the golf course, our friendly neighbours who are enjoying the micro-climate of the course created by the thousands of trees and the fourteen lakes of the golf course.

The course was designed by the late Folco Nardi and the idea was to create a course that was technically challenging yet not too difficult. With a good concentration and the correct selection of the clubs the player can end up with a good score in one of the 50 competitions played every year at Lauro Golf.

The extension of the course with the holes 19-27 designed by Mariano Benítez follows the same lines and equally requires concentration and skills. The course is moderately flat and can be played by foot though there are two holes located on the side of the mountain and from which we can enjoy some spectacular views over the valley of Guadalhorce and the Mediterranean.

The club house is located in an old Andalusian building, Cortijo el Paredón, where you can find the restaurant, changing and locker rooms, pro shop and the Caddy Master's Office. On our premises and the surroundings you can also find a swimming pool, a padel tennis club, lawn bowls club and an equestrian centre. In the middle of the cortijo there is a fabulous patio, with an enormous ficus tree in the middle which offers shade to the players enjoying their food and drinks after a game of golf.

# la cala golf

## La Cala de Mijas

**LaCala**  
GOLF HOTEL SPA  
MIJAS SPAIN

Three superb championship courses, each presenting its own unique challenges, slot seamlessly into a natural undulating backdrop of stunningly beautiful trees and flowers, rich with birds and wildlife. We're passionate about our golfing pedigree and it shows. Designed by the renowned Cabell Robinson, each 18-hole course has been created to ensure a testing, yet truly exhilarating experience.

### Campo America

6009 meters, par 72 with five par 5s.

Formerly the North Course, Campo America is enhanced by spectacular views to the Sierra de Ojén and Mediterranean Sea. It's wide, linked fairways and relatively few bunkers make this a slightly easier driving course, though the hilly topography requires a lot of carry across steep brush-covered side slopes. While the small raised greens demands more precise club selection to hit the mark. There are water hazards on the 9th and 16th.

### Campo Asia

5925 metres, par 72.

Formerly the South Course, the spectacular Campo Asia has plenty of challenging holes, guaranteeing a testing round of golf which puts a premium on the approach shot. The oldest of our three courses and the one most respected by the professionals, it is narrow and short, with four par 5 holes demanding skill and strategy. Look out for the 10th with its classic design, and the 5th where the aim of your drive is especially critical. The 18th requires full concentration. Remember not to over-club off the tee or this lengthy par 5 could spoil your scorecard.

### Campo Europa

6014 metres, par 71.

A dramatic course but easier for the average golfer, with generous fairways, flatter terrain and slightly larger greens than Campo America and Asia. Notable for one main bridge and four smaller bridges across the River Ojén, which features in eight holes, cutting across three fairways. There are four tunnels for golf carts. Water hazards guard the 3rd and 14th greens. The 14th is at the maximum limit of what is allowed for a par 3 at 233 metres. The par 5 11th is the longest hole at 524 metres.
